I spy "alphabet words..." e-book

The wonderful thing about this collection, is that it can be used a variety of ways based on therapeutic need. It is colorful, attractive, and versatile. Listed below are some ideas to help your creative treatment using this book.

- * Articulation: Circle each word that is said, focusing on the targeted letter sound.
- * Visual-Perception: Read aloud each word that is seen. This can be effective with visual field neglect.
- * Visual Memory: Cut up words from 1 copy and then match them to the other uncut copy.
- * Place a picture of each word in a bottle filled with rice or alphabet pasta, then have child shake the bottle and see if they can find the pictures of each of the items on the iSpy list.
- * Articulation: Work on letter blends such as "sh", "tr" and "gr".
- * Visual-Motor: Item on each page to color.
- * Visual-Motor: Write (copy) your favorite words from the iSpy list.
- * Academics: Reading, Comprehension, and Alphabet familiarization.

Not one letter of the alphabet has been left out, so get your complete collection here!
