

Transforming Speech

Copyright 2019 BrilliantTherapy.com Making Therapy Better!

Here is a wonderful way to incorporate motor movements and speech skills!

All you do is cut the actions or question activities from the list and paste them on colored paper. You can choose the shape or colors you wish(stars, polk-a-dots, hearts, etc.) and then paste them on a long strip of paper about 1-2 inches wide and as long as you want (2-3 feet).

By combining speech and motor movements, you encourage increased lung capacity and total body involvement.

Choose from the list below to get started making your transformation speech activity strips.

**Whisper 5
words that
start with 'B'**

**Say 4 words
that start with
the letters 'Sp'**

**Sing 2 different
notes.**

**Say a word with
with 3 syllables
and clap it out.**

**Read a sentence
while standing on
1 leg.**

**List 5 items
that are cold**
(touch something cold while you list them).

**Write 5 words,
1 on each finger
that you trace
From your hand.**

**Act out 3 animal
moves and say
the corresponding
sounds.**

**Hug yourself hard,
then spread out
Your arms and make
5 different vowel
sounds.**

**Say 7 words from
this list: Street . Storm .
Style . Strap . Snuggle . Slip .
Snake . Stop . Startle . Sting .**

<p><u>Log roll</u> on the floor and <u>count</u> to 10.</p>	<p><u>Jump backwards</u> while you <u>say</u> “Hi there!”</p>
<p>While you <u>rub</u> your <u>hands</u> together, <u>say</u> “This feels so good!”</p>	<p><u>Say</u> “Peter Piper picked a pepper.” with 3 <u>different volume</u> levels.</p>
<p><u>Touch</u> your <u>fingertips</u> together one at a time for <u>each word</u> you say in a sentence.</p>	<p><u>Sing or say:</u> Ma, Meh, Me, Mo, Moo.</p>
