walrus	alligator	snake	grandma	elephant	chicken
crab	turtle	tiger	tornado	grandpa	drummer
waterfall	racecar	horse	bowling ball	rabbit	panther
1 dot	2 dots	3 dots	4 dots	5 dots	6 dots

About This Resource:

Thank you to all our supporters!

As you have noticed, we have made several **Roll & Stamp & Move** activity sheets. All you need to do is provide a die and dot marker (or crayons, markers, tiny eraser etc.). You can combine speech and fine and gross motor movements to help create increased skill retention. If you add writing just grab a pencil and writing paper. I enjoy asking kids to roll their die, select a word, write it, and move like the animal/item they selected on the list. They write, say, and move so much more.

Remember that rolling die is a wonderful fine motor and upper body support move as well.

Cognitive element pages are also fun as you call out the synonym, antonym, rhyming word, or opposite of the word selected from the word column.

Enjoy these colorful illustrated pages full of skill building fun!

We also thank you for not abusing this resource by making copies for all your therapist friends. To keep this site available and running, it takes money, and any extra monies get redistributed back to our members who demonstrate need.

We recognize that we are not perfect as you may find typo's and other errors, but we try our best to get tools out to you quickly and enhance your therapy or entertainment experience. Our mission is to help everyone who needs to build skills, maintain them, or just have fun with something that is not electronic. We want each one of your loved ones to have access to these therapy tools so that we can take care of each other. Be good to yourself and others. Thank you for being part of our team!

Let's connect on Facebook, Instagram, or email. Get involved and get more points!
